### **DETAILED ACTION**

1. The restriction requirement listed below replaces the previous restriction, which applicant correctly traversed owing to the application being filed under 35 U.S.C. 371 which requires the international standards for restriction.

### ***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, drawn to a casing.

Group II, claim(s) 11-14, drawn to a method of making a dry sausage.

Group III, claim(s) 15-24, drawn to a method of using a casing.

3. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of group I is a product comprising a breathable polymer casing, the special technical feature of group II is the step of extruding, casting, or blowing a casing with a MVTR of 2-20 g/m<sup>2</sup>/34 hours, the special technical feature of group III is the step of using a breathable polymer casing for dry sausages.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
